DETAILED ACTION

Allowable Subject Matter

1. Claims 1-11 are allowed.
2. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest a roll core insert as claimed in claim 1, and shown in Figure 2F, wherein the core insert is placed within the core prior to use, and is made up of first and second circular disks having inside and outside planar surfaces, with the inside planar surfaces of each circular disk being connected by a body, and the core insert having a security device (i.e. RFID tag) disposed thereon, to prevent theft. Figure 6 of WO 94/11846 to Robertson, shows the core of a roll of cash register receipt with a security device placed on the inside of the paper roll. The major difference between this prior art and Applicant's invention is that the security device is placed directly on or in the core of the roll of paper, instead of being placed on a roll core insert and slid into, or inserted into the core of the paper, as claimed by Applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
